September 2008

## UPCOMING EVENTS

### **WIND POWER SEMINAR AT SOUTHOLD TOWN HALL TO BE HELD SEPTEMBER 10TH**

Southold's Renewable Energy Committee will be sponsoring a seminar on wind power on Wednesday, September 10th at 7pm at Southold Town Hall. The seminar, hosted by Wind Design Engineer Roy Rakobitsch, will discuss the growing popularity of wind energy worldwide, along with information about how wind turbines work, the difference between VAWTs and HAWTs, how to change batteries or take advantage of net metering, small commercial and 'homebrew' designs, along with some history and science behind wind energy. With rising gas prices and the ability to produce clean and renewable energy in all weather conditions and times of day or night, wind power is quickly gaining increased international attention.

More information is available by calling 516-510-7873. Southold Town Hall is located at 53095 Route 25, Southold.

### **SEPT 10TH DOT MEETING WILL DISCUSS ROUTE 25 AND ROUTE 110 INTERSECTION SAFETY AND OPERATIONAL IMPROVEMENT PROJECT**

On Wednesday, September 10, 2008, the New York State Department of Transportation (NYSDOT) Region 10 will
